DRAMA CLASSES

These classes are a great opportunity for adults, teenagers and children six years and over to learn stagecraft while enhancing self-awareness and self-confidence. Our highly qualified and experienced tutors, who also work in professional theatre, run these school term-based classes. Classes are structured to allow students to learn and be challenged in a fun environment. It is not necessary to have drama experience – a strong desire to be there and a

willingness to try new things is all that is required (though a sense of humour is a plus!). A range of theatrical devices, games, styles, exercises and devised provocations are used. Focus is given to character development and storytelling, and students will be encouraged to free their imaginations and explore the notion of play as a creative tool. Contact the theatre, 534-1406, or see the website for details: www.hlt.org.nz.
